AboutUS

Founded in 2002, Nexgen aimed to be the world leading TV display products supplier: design and manufacture first-grade total TV display solutions for our OEM/ODM customers.

Nexgen's key founders have extensive technical and management experience from Chi-Mei Optoelectronics, the world-leading supplier of TFT-LCD Panel. Our management team is among the most experienced and respected in the Semiconductors & Optoelectronics industry with advanced knowledge in Quality, Material Management and Production fields.

Our superior experience in display technologies places us in a unique position to deliver state-of-art TV display solutions satisfying all requirements from PC applications to the fast-growing home entertainment market.

Nexgen has its sights set years into the dazzle future of flat panel display/HDTV. With a focus on innovation, time-to-market, ownership of technologies, proven strategy of vertical resource integration, elite R&D and assembly line, Nexgen will continue to be at the front of the pack by bringing the best-quality display products to customers.
